- Honda 4 T 2.3 + electric inflater**
- Tender Garage with electric winch**
- Folding Carbo Gangway 2,25 m**
- Carbo flag pole**
- Cockpit cushions and covers for wheels and cockpit table
- Cockpit sun awning

NOTES

The historical quality of Solaris gives its best with a jewel of rare construction quality and extraordinary characteristics of behavior at sea typical of the hulls of Soto Acebal.

The construction is in sandwich with unidirectional and bidirectional glass fibers, carbon reinforcements and structural parts (bulkheads, floors and spars) made in infusion.

Carbon mast and boom, hydraulic control unit for vang, backstay, outhaul and 4 electric winches make navigation easy even for a small crew.
