

290 SIGNATURE

BEST-IN-CLASS. SEAWORTHY. POWERFUL.

If you're searching for the most space-efficient family cruiser available under 30-feet the 290 Signature is it. At home in all kinds of conditions, the 290 mixes form, function and performance with a distinct touch of Chaparral class. Available with twin engine V-6 power, the 290 enjoys a clear cut performance edge over comparably-sized rivals that may offer only single engine propulsion. Well equipped standard, if you want a custom look the options list includes a hinged radar arch, rod holders, a windlass, underwater lights, a gas grill, remote spotlight and a fire protection system. Every piece of hardware, from the electro-polished thru hulls to the flush mount pull-up latches, is corrosion-resistant stainless steel. A Limited Lifetime Hull Warranty and Kevlar reinforcement make a strong statement about Chaparral's quality.

LOA W/PLATFORM 29' (8.84M) • BEAM 9' 6" (2.90M) • FUEL 100 GAL (379L) • WEIGHT 9,100 LBS (4,128KG) • MAX. HP TWIN 225 HP (TWIN 168KW) • DEADRISE 20 DEGREES

DUAL WIDE HELM SEAT

The helm bolster includes independent flip up front cushions for stand-up, sit down or bolster-style operation. Note the molded storage area under the double wide seat.

COCKPIT DRAINAGE SYSTEM

UL-approved non-skid, a molded drainage system and a self bailing cockpit all work together so you never have to work overtime at day's end.

PREMIUM SOUND SYSTEM

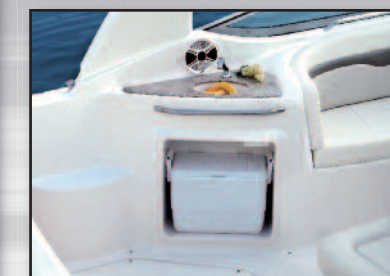

The standard AM/FM/CD player comes with a dash remote, MP3 jack, four water resistant speakers with custom logo grilles and 6 months free Sirius satellite activation.

MOLDED DASH STEPS

When you need to handle dock lines, molded dash steps, a walk-thru windshield and raised stainless bow rails make deck access easy. Stretch out on an optional deck sun pad with stainless steel side rails for added security.

STANDARD TRIM TABS

Standard trim tabs are ideal for balancing shifting weight loads and fine tuning the 290's Extended V-Plane performance. Dash-mounted Indicator lights are optional.

COCKPIT DINETTE

Face-to-face cockpit couches and a standard dinette are perfect at meal time. A standard filler cushion creates a huge sun lounge. UL approved non-skid flooring comes standard with action backed snap-in carpet.

OPTIONAL ROD HOLDERS

The adjustable back seat collapses for full transom access while fishing or diving. Rod holders are available as optional equipment.

COCKPIT WET BAR

The handy cockpit wet bar features a solid surface countertop, sink, pressure water, pull-out sprayer faucet and a stainless grab handle. A removable ice chest stows underneath. Stainless steel drink holders surround the cockpit.

TRANSOM WALK-THRU

The walk thru has a three position stainless steel door that leads to an extended swim platform with a three step ladder.

TRANSOM STORAGE TRUNK

The transom storage trunk, complete with a stainless steel hangar, has a drain to prevent water build up. A retractable stainless steel shock supports a hinged lid. All dockside connections are located inside away from harmful elements.

Advantage Chaparral. Most cruisers in this size range require you to wake up and disassemble the forward berth if you want to use the dinette for an early morning cup of coffee. Not so on the incredible 290 thanks to a huge berth and a separate dinette. The cabin sleeps six which is the same as our 370 flagship and remarkable given the boat's under-30-foot centerline length. An oversized square deck hatch with a retractable shade and screen, along with four eye-level screened ports stir an airy, spacious feeling. Removable carpet, two cedar lined clothes closets, flat screen entertainment packages and lined privacy drapes are all standard equipment extras that make the 290 one of the roomiest cruisers you'll find under 30-feet. Key cabin options include a 10,000 BTU air conditioner/heater, a generator, teak and holly flooring and an accessory pillow/towel package.

CABIN HEADROOM 6'2" (1.88M) • SLEEPING CAPACITY 6 • WATER CAPACITY 29 GAL (110L) • HOLDING TANK CAPACITY 28 GAL (106L)

CONVERTIBLE DINETTE

Putting every inch of space to use, the comfortable four-seat dinette has a drop in table for mealtime. A center filler cushion converts the area to an overnight berth for two. Overhead storage cabinets are ideal for carry-ons.

HIGH VOLUME STORAGE CAPACITY

Everywhere you look there's storage: in a sliding drawer under the V-berth, in the galley, the head, under the dinette seats, on gunwale shelves and in a large floor locker.

ENCLOSED FIBERGLASS HEAD

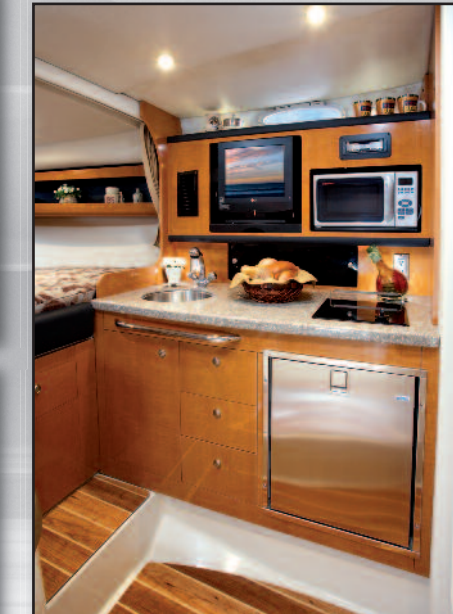

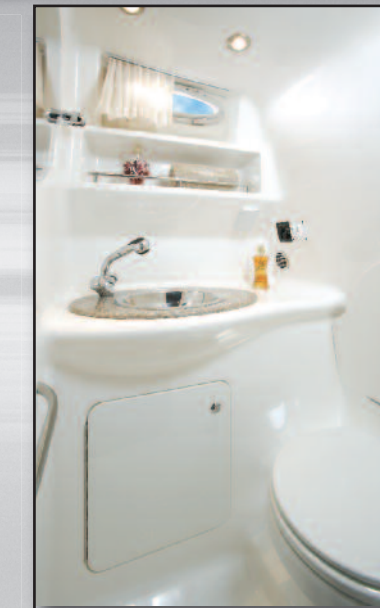

The stand up head has a shower curtain, wand-faucet, sink, under counter storage and a stainless grab rail. A screened port adds ventilation. The VacuFlush porcelain head has a holding tank with level indicator and a custom built-in seat cover. A gray water system and macerator are optional.

OPTIONAL ACCESSORY PACKAGE

For a finishing touch, add optional accent pillows, shams and color-coordinated towels that match your cabin fabric selection.

SUSPENDED VINYL HEADLINER

Stylish look. Easy to clean. Precise fit. Won't retain cooking odors. Allows use of overhead lighting.

CABIN GALLEY

The AC/DC refrigerator, microwave, sink and grab rail are all made of stainless steel. A solid surface countertop and maple cabinetry accent a high class galley design. Note that the standard TV is mounted in the galley for widespread viewing. The 290 enjoys a competitive edge when it comes to countertop space and most boats in this size range don't even offer drawer storage in the galley.

FIBERGLASS INNERLINER CONSTRUCTION

The look is clean, the style modern. When it comes to fit and finish, it simply doesn't get any better than Chaparral.

PRIVATE AFT CABIN

Anything but an afterthought, the best-in-class aft cabin has comfortable overnight accommodations for two adults. A high quality flat screen TV/DVD is optional. A screened opening port provides welcome ventilation.

REMOVABLE 55-OUNCE CARPETING

Our heavy-duty removable carpet is easy to keep clean, wears well and feels good underfoot.

CEDAR LINED CLOTHES CLOSETS

Nothing is better than the smell of fresh, neatly pressed clothes coming out of a cedar lined closet.
