Marquis 720

The Marquis 720 is the latest creation formed from the partnership of Nuvolari-Lenard Naval Architects of Venice Italy and Marquis, America's foremost builder of premium quality yachts. The result is being admired by experienced yachtsmen for its timeless styling as well as its superior engineering and construction quality.

This new Marquis 720 is a substantial vessel. Its expansive length and beam are used to create opulent living accommodations on three separate decks providing the owners and their guests with a widely variable selection of living and entertaining environments. The raised sheer line, sculpted transom and integrated swim platform give this yacht a commanding, aggressive presence.

The upper deck and pilothouse provide an elevated, 360° view of the yacht's surroundings. Interior climate is controlled by utilizing the thermostatically controlled heating/air conditioning system. The upper level is outfitted with a combination of inlaid planked teak, salon quality furniture and handcrafted cabinetry including a fully equipped bar and entertainment center. The aft bulkhead door invites you into the upper deck's portico that can be outfitted with numerous deck chairs, a built in grill and other convenient accoutrements.

Within the yacht's pilot house is a helm station that has been designed to accommodate Raymarine's newest and most powerful array of G-Series navigation electronics with 17" display screens.

The Marquis 720 expanded salon will likely be the place for more formal gatherings and evening dining. An array of Italian Poltrona Frau® handmade leather furniture provides both stylish and comfortable seating. The adjacent large gourmet galley and serving center is situated on the same floor level as the salon.

This is a feature that is difficult to find in other brands of yachts but certain to be appreciated by those considering the Marquis 720.

Marquis 720 - continued

Three separate staterooms (a fourth stateroom is available) and three head compartments (all equipped with dedicated showers) are situated below decks. The owner's stateroom uses the yacht's full 5,5m beam to provide a true yacht grade living environment. The cedar closet, vanity, double sinks, shower and tub make the master stateroom homelike and comfortable.

A unique feature on the Marquis 720 is the cabin located off the yacht's transom a stern cabin/day head - "Cabana" complete with changing room, its own full-size and swim platform. This area can be configured as a 2-person crew's quarters or as shower, head and sink. This makes a very convenient spot for changing into and out of swim wear and as a storage area for water toys, fishing equipment or dive gear.

As with all Marquis Motor Yachts, the Marquis 720 is built and certified to comply with CE "A" Classification, the most stringent yacht construction specifications in the world.

The new Marquis 720 is not only beautiful and well equipped but it's built to cruise any body of water throughout the world making it a true global-class yacht.
