ENGINES	2* MTU 12 V 4000 M90 power 2775 mhp / 2040 kW at 2100 rpm
ENGINE HOURS	320 hrs
CABINS	5

The motor yacht Cleopatra - Athena 115 model - is a 35 m 115 (ft) good sized composite ship which was developed by Riva (Ferretti Group). The elegance of this 35-metre yacht continues to capture the esteem of those who can recognize a Riva craftsmanship when they see one.

The punchy bow, the advanced deckhouse, the distinguished colors and the precious woods that even cover the walkways all go to make this boat a perfect match of modernity and sophisticated style. There are numerous quality features that make the 115' Athena such a surprising boat. First of all, the size, which make this vessel a very semi-custom megayacht.

The 115' Athena represents the ideal time for all the clients of this historic shipyard to fashion their unique traits into a project that will retain, whatever happens, the Riva style.
