

PRESS RELEASE

Bremen, November 2008

Elegance Open Sport Yachts: the third yacht line by Drettmann

The ambitious Bremen-based yacht manufacturer Drettmann has supplemented its product portfolio with a further model. The new ELEGANCE OPEN SPORT YACHTS are positioned next to the successful yacht lines ELEGANCE YACHTS and BANDIDO YACHTS.

The German designer Roland Friedberger and the Italian ship architect Tommaso Spadolini were commissioned with the design of this sport yacht in a range of 60 to 100 feet. The individual concept more than satisfies high standards in modern design, top comfort and performance.

The three square meter glass sliding roof and the large-scale glass door turn deck salon and cockpit into a continuous unit, suffused with light and air. A genuine sporty feeling and optimal all-round visibility are provided by three Recaro sport seats. The master cabin with 2m ceilings as well as VIP cabin, bathrooms and galley offer the size and roominess of a flybridge yacht.

The official market launch and presentation of the first 60-foot ELEGANCE OPEN SPORT YACHTS will take place at the boot 2009 in Düsseldorf.
