

PRESS RELEASE

Bremen, October 2008

Rising star: Elegance 60 by Drettmann

Presented to the world at large for the first time at the boot 2008 in Düsseldorf, the Elegance 60 is a perfect addition to the successful Elegance Yachts line of 54 – 160 foot yachts by Drettmann, the Bremen-based yacht agency. The Elegance 60 has been designed by the Florentine yacht architect Tommaso Spadolini.

With a compact size of 18.40 m length and 5.30 m beam, the Elegance 60 is being celebrated as true space-saving miracle:

3 cabins with different layouts, crew cabin, garage for jet ski, a generously-sized flybridge and modern, cosy interior design ensure a comfortable life on board for the entire family. And those with sporty ambitions won't come up short: with 2 MAN engines of 900 HP, the Elegance 60 achieves top speeds of 28 knots.

The base price for this successful symbiosis of comfort and sportiness is € 1,783,810.00 incl. 19% VAT.
