

*RELENTLESS ACCELERATION. EXACT SEA HANDLING.
BREATH TAKING SPEED. REMARKABLE DETAIL.*

WELCOME TO THE ALL-NEW MARAUDER SS. THE COCKPIT WAS MOVED BACK, extending the deck. The hull and deck lines are smoothed for improved aerodynamics. And the hatch has been completely redesigned to optimize the airflow to the high-horse powered, dual turbocharged Mercury Racing engines. The consoles, the upholstery, the details — all are new, yet completely Cigarette. The result is awe-inspiring glamour in a performance boat: although amongst the newest in the Cigarette line-up, it has already achieved legendary status.
