

The Riviera 4000 Offshore.

RIVIERA

Your choice of style

The Riviera 4000 comes in three handsome and distinctive styles. Choose from a soft or hard top bridge deck configuration. Or a fully enclosed layout.

All three feature command consoles which are equipped with state-of-the-art controls and instrumentation.

Huge clear-view windscreens protect the helmsman and guarantee heavy weather vision at speed.

Seat yourself on the ergonomically designed helmsman's seat. Open the throttles. Head out to the blue water. Here is the excitement you have always sought.

Passage-making luxury

Below deck you will be amazed at the space that welcomes you. There is space to equal that of many larger day cruisers.

Step down to more spaciousness. Discover a roomy galley to port complete with all the kitchen facilities you would expect ashore. Again, design, workmanship and finish are to Riviera's world acknowledged standards.

And to starboard is your formal (and convertible) dinette where you will want to linger over a gourmet repast at the end of a day's passage making.

Asleep in the deep

The forward stateroom aboard your Riviera 4000 is a masterpiece of design and comfort.

Try the huge island bed for comfort. You will know this is quality only found in innerspring mattresses from exclusive bedding stores. There is room all round.

Plus all the stowage space a couple could use. The spacious bathroom has the facilities you would expect of a quality hotel ashore. There is a glass panelled shower stall, vanity basin, power operated toilet, makeup mirror, clever towel and bathroom necessities storage. You will feel fresh, look good.

Dine in 5-star comfort with this generous and comfortable dinette arrangement.

Even offshore you will enjoy the facilities of this luxury bathroom.

vestment in craftsmanship and qu

Storage rail for leisure items.

Generous companionway entrance leads to practical galley. There is even a microwave oven.

Performance plus

Your Riviera 4000 Offshore is not tweaked to the same competition standards of our world powerboat championship racing entries. But it still delivers an offshore punch that few other craft can match. The power selection ranges up to twin 450 hp diesels that whisk you to a cruising speed of 28 knots and a top speed of 34 knots. Even at top revolutions Riviera's superb hull design delivers a smooth and comfortable ride as well as precise handling in even heavy conditions.

You'll get where you are going fast. And in comfort.

The keynote is quality

What distinguishes all Riviera craft from their competition is the company's unswerving dedication to its program of quality production. This was developed on the premise that, for production craft, most of the build materials are sourced on the open market and are common to all boatbuilders.

Riviera set out to make its craft different through superior design and construction. And better finishes and workmanship.

The result of this policy is a range of cruisers which have consistently shown higher resale values than many of its competitors in the Australian market. For this reason alone, you can confidently regard your purchase of a Riviera 4000 as a sound investment for the years ahead. Inspect a Riviera 4000 to see, feel and admire the differences. And its investment value.

With the Riviera 4000 Offshore you acquire quality to set your purchase apart from all others. With performance to match.

Put your family first

With the Riviera 4000 Offshore you have the opportunity to give your family the sense of achievement you have sought and enjoyed. And the enjoyment that only an offshore performance cruiser of this calibre can produce.

So why not come offshore with Riviera. Soon.

ality.

The offshore masterpiece that puts your family first.

Achievement has always been your goal.

Now, with the Riviera 4000 you truly have a performance cruiser that reflects your need to outperform those who choose to compete with you at work and at play.

But, far more importantly your ownership of the Riviera 4000 offers you more than personal achievement alone. It offers your whole family the opportunity to share the privilege of achievement and the respect of your friends and associates.

Your Riviera 4000 will make yours the first family in your boating circle.

Many people have said this of the Riviera 4000 Offshore: "This is the only boat on the water that looks like it is a race boat when it's at anchor." But performance is only one reason you will want to own it.

*Offshore performance,
cruising luxury*

In less than 20 years Riviera design, construction and finish has become a living legend in Australia and in over 22 countries across the world.

You'll be aware of those legendary qualities the moment you step aboard the Riviera

4000. You will notice it first by the quality of the hull finish and its fittings. The exacting workmanship might have come from a more leisurely age of boatbuilding skills.

From the spacious cockpit forward you are aware of the gleaming, hand-burnished, steamed European beech fitout and meticulous attention to detail and comfort. Come aboard and discover how rugged offshore performance can still live happily with the ultimate in comfort and cruising luxury.
