Notes

The Viking 45 is built in the tradition of its larger siblings and shares all of the engineering attributes that have made Viking synonymous with blue-water performance and luxury. Built to deliver the utmost quality, the Viking 45 represents everything Viking Yachts is noted for in a mid-sized convertible. A sleek sheer and a flow of soft curves gives the 45 Convertible an eye pleasing profile at the dock and underway. Generously proportioned from the raked stem to the roomy cockpit, the 45 Convertible is handsome and versatile. A strong performer with a choice of fuel-efficient, turbocharged diesels, the sharp entry, molded chines, 15-degree deadrise angle transom and fairbody running surface combine to create a hard charger with reserve muscle to weather the conditions typically experienced in the deep without breaking a sweat. And with just two major components, the hull and the deck, house and cockpit assembly, the 45 Convertible is a rugged, durable mass of marine engineering and state-of-the-art technology. This 45', owned by her sole owner since the first delivery is perfectly maintained and ready to go. Call for more details.
