Layout

Profile

Sistership aft view

Technical Data

Fuel capacity:	2000 l
Water capacity:	650 l
Transmission:	Shafting
Max Speed:	36 Kn
Cruising Speed:	33 Kn
Navigation category:	B - Offshore
People on board:	14
Rina Expiration:	2015
Displacement:	22000,00 Kg

Generatore

1 x Kw 14 Kw Mase

Electrical System:

12-24-220 V

Habitability

Cabins Beds:	6
Other beds:	0
Total beds:	6
Crew beds:	0

Cabins Typology

1 Living	2 Double King Size
1 Double flat	3 Toilet with shower no bidet

Materials

Hull Material:	Fiber Glass
Deck Material:	Vtr + Teak
Cockpit Mat:	Teak
Hull color:	Blue

Engine Data

Type: **Inboard Turbo-Diesel**
Overhaul: **calendariale**

Technical Data

Shape of careens: **Deep V**
Planner: **Atlantis Yachts**

Electronic tools for navigation

Autopilot, Chartplotter, Compass, Depth Sounder, GPS, Odometer, Radar, Radar Antenna, Steering angle, VHF Radio

Staging and technical

3 Automatic Bilge Pump, 6 Batteries, Anchor, Battery charger, Bilge Alarm, Bow Thruster, Deck Shower, Electric Flaps, Electric Windlass, Fire Extinguishing System, Gangway (elettroidraulica), Gasoline Fume Detector, Hard top (elettrico), Horn, Inverter, Platform, Shorepower connector, Special Colour (Blu Navy), Teak Cockpit, Teak Side Decks, Tender Garage, Water pressure pump

Domestic Facilities onboard

3 Electric Toilet, Air Conditioning (doppio ciclo , anche nel pozzetto), Galley, Warm Water System, Waste Water Plant

Entertainment

DVD, Hi-Fi, Home Theater, TV, TV

Kitchen and appliances

Deck Refrigerator, Microwave Oven (Combi), Refrigerator

Upholstery

Bow Cushions, Stern Cushions

Accessory notes

Helm

Sistership cockpit

Cockpit grill

Sistership dinette

Master stateroom

Sistership Vip cabin

Notes

Atlantis 55 covers a market sector that developed particularly in recent years, both for careful and demanding clients, both for the target required finish on this type of boats, begins to be more and more difficult to satisfy. This does not seem to have scared the designers that have, in our opinion, expressed at their best those which are the compromises between a sports boat innovative and captivating lines, and the habitability of the open areas and the inland areas, aimed at obtaining maximum comfort for guests aboard.

The side view of the boat is objectively alluring futuristic forms of covered structure, that stamp to an aggressive and sporty look. Inside the cockpit you appreciate the filosofia of "true" open, or the ability to fully enjoy the browsing and the direct contact with the sea through large Windows, but especially through the surface of the t-top completely transparent, starting from the base of the windshield until Stern. Moreover, the front part of the roof flows electrically to discover the median area of the boat. The latter turns out to be cleverly designed and so varied with an appropriate mix of convivial areas coupled with generous sunbathing areas. It should be noted that the entire boat including area under the hard top is equipped with air-conditioning and, during the winter months, can be heated. Under the stern sundeck, which heaves with electro-hydraulic mechanism, is placing a large garage for the tender. Below deck is tangible feel of sophistication for the choice of the bright-hued outfits, especially for what concerns the furnishings, finishes of bulkheads, ceilings and bleached oak furniture from the very clear tones.
