Dotazioni domestiche di bordo

Boiler, WC marino elettrico

Intrattenimento

Stereo

Cucina ed elettrodomestici

Frigorifero interno

Tappezzerie

Cuscineria di poppa, Tendalino

DESCRIZIONE

The 2900 Coronet is Tiaras entry-level model and she's affordable and feature packed. As a multi-purpose boat the 2900 is great for fishing or just entertaining, thanks to her 114-square foot cockpit. As far as performance is concerned she hops quickly onto plane with minimal bowrise and demonstrated a smooth ride with good lateral stability at speed and at rest.

As far as amenities are concerned, the Coronets cockpit is not exactly tournament-ready, but it does boast 54-square feet of space. Bigger-boat touches include stainless steel hawsepipes for the stern lines, and the standard cockpit bolster pads are at mid-thigh height for security when gaffing a fish. The bridge deck has a raised L-shaped lounge to port with a smartly designed chart table/stowage area forward, and a helm seat and refreshment console to starboard. The console has a cold water sink, a large icebox and a second smaller one. The 2900 sleeps two in a forward V-berth and has an enclosed head with sink. The galley is basic with a cold-water sink and single-burner stove.
