Notes

The Super 32 HT Indians was born from the experience and great success of the Super 31 Indians, glorious model presented in the late 1970s and remained in production for almost twenty years. The hull shows the classic lines of an open, with a low deckhouse and slender, long sides and the classic large aft sun deck to full beam. The novelty is the organization of spaces and the introduction to the center of the boat by a lightweight and nimble hard-top, made in fiberglass, canvas and glass to repair, if necessary, the helm, the dinette and the cockpit, without upsetting the general lines and without burdening the hull. Below deck are located a cabin and a bathroom, both finished according to Columbus high standards: cabin cushions, teak floors, abundant use of wood while for smooth surfaces and bathroom. The cockpit on the left has a dinette with sofa and table front lowered on the starboard and the mobile kitchen and advanced position, the driver's dashboard with Central helm. This boat is only one owner, with few hours and in perfect condition.
