Notes

Built in advanced composite materials, the 9-metre 30 Maori is designed by Marco Ciampa. Her modern design reminds us of her previous successful larger sisters. Large lounge chairs accommodate guests onboard, and the central console includes a day head. With the single Yanmar 370 Hp and the Mercruiser Bravo III stern drive this beautiful tender, like new, can reach a top speed of 42 Knots. This 30 Maori is a demo boat of the factory and can be a great deal. Call for every further detail.
