DESCRIPTION

Presenting itself in the mid nineties, Princesses and open hard top V series models has been a non stop growing success for the British builder. The V53 presented in the year 2006 has been another winner for the range offering with it a good performance together with a luxurious interior and sleek exteriors but always keeping the conservative Princess look to the overall package. The V53 is an integrated hardtop only model, with a sunroof opening in a few seconds to the sun or closing for the shade or rain protection. This boat, always perfectly maintained by her first and sole owner, is ready to go.
