#### **Upholstery**

Bow Cushions, Cockpit Cover

## **DESCRIPTION**

A recognizable style where rigor, meticulous essentialness and coherence created a perfect balance between refined taste and culture. A unique personality which has made the Morgan 44 Lobster Boat an international icon. The balance between the choice of precious and natural materials, the best on board equipment available and the linearity of the boat make it perfect.

The 44 ft was the first Morgan motor yacht inspired by the lobster boats born in New England during the 1950 's and originally used for lobster fishing. Designed by the Besozzi-Selvetti Firm, the 44 Lobster Boat has inaugurated a new range of Morgan boats, which has been added to that of the Fast Commuter, which Morgan has been building for over 10 years. This Morgan 44, still owned by the first owner is leased and ready to go. Call for further details.
