Additional Information

The ISA 120 really is one of a kind. The sophisticated looking and technologically advanced yacht was built in the 45,000 square foot International Shipyard in Ancona, Italy. It is a streamlined, slim design with 3 decks and spacious, well-designed interiors. The ISA 120 has avant-garde propulsion and truly exceptional performance in addition to its stunning looks.

Now three years since its debut, the ISA 120, fiberglass planning yacht is the absolute jewel in the crown of the Ancona shipyard. This is the 9th incarnation of the yacht.

The yacht has exceptional peak speed - 36 knots, for a 120 foot yacht: The engine is a 3 Mtu 16V 2000 M93, each 1790 kW, coupled to 2 KaMeWa hydrojets and 1 central booster makes the boat extremely agile and maneuverable, with quick acceleration, gentle deceleration and turning.

Another important feature is the use of Quantum stabilizers even in speedy cruising. There is no perceivable reduction in speed, as the yacht easily maintains speeds in excess of 33 knots.

There is a balanced ratio of external and internal space: large sea terraces with teak decks, the cockpit and flying-bridge are offset against the enormous light and airy indoor lounge area and the spacious cabins.
